

## Fundamentals of electronic structure

*Kieron Burke,*

*Departments of physics and of chemistry, UC Irvine, USA*

**Thursday February 22, 14:00, Room MED 0 1418**

**Abstract:** I will attempt to explain the limitations of modern approaches to electronic structure theory, and my own feeble attempts to overcome them. The material will include semiclassical concepts, such as the WKB approximation, and spans a century of theory.
